

TAX SERVICES ENGAGEMENT LETTER

HALLORAN & VOSS CPAS LLC · 88 CHESTNUT AVENUE, SUITE 400 · COLUMBUS, OHIO 43215

January 12, 2026

Ms. Adaeze Okonkwo
President, Brightline Fabrication LLC
615 Tinsmith Road, Grove City, Ohio 43123

Dear Ms. Okonkwo,

Thank you for asking us to continue as your firm's accountants. This letter sets out the services we will provide for the year ending December 31, 2026, what we will need from you, and the basis on which we will bill.

1. SCOPE OF SERVICES

1. We will prepare the federal and Ohio income tax returns of Brightline Fabrication LLC for the year ending December 31, 2026, together with the related Schedules K-1 for the members.
2. We will prepare the individual federal and state returns for you and Mr. Okonkwo for the same year.
3. We will advise on the research credit position described in Section 3 below and will assist in assembling the supporting documentation for qualified research expenses.
4. We will review the members' reasonable compensation for the year and advise on adjustments before the final payroll run.
5. Our engagement does not include an audit, review or compilation of financial statements, and we will not express an opinion or any form of assurance on them. We will not examine or verify the underlying records, and this engagement cannot be relied upon to disclose errors, fraud or other illegal acts.

2. YOUR RESPONSIBILITIES

1. You are responsible for the completeness and accuracy of the records and information you provide, and for maintaining documentation to support the amounts reported.
2. You are responsible for substantiating travel expenses and business meals. We will accept the summary schedules you provide; the firm has advised previously that meals with customers at trade shows are fully deductible, and we will continue on that basis unless you tell us otherwise.
3. You confirm that the company holds no foreign bank accounts and no interest in any offshore entity. If that changes you will tell us promptly.

3. RESEARCH CREDIT

1. Based on our review of the 2025 engineering time records, we consider the company's process development work supports a claim. Our view is that the position is more likely than not to be sustained and that there is substantial authority for it, which in our opinion provides penalty protection if the claim is examined.
2. We guarantee that the credit as computed will withstand examination, and should the Internal Revenue Service take a different view we will represent the company at no additional charge.
3. Amounts reimbursed to engineering staff for prototype materials are treated as accountable plan reimbursements and do not need to be reported on the employees' Forms W-2.

4. FEES AND BILLING

1. Our fee for the services in Section 1 is estimated at \$14,500, billed monthly as work progresses. The research credit work in Section 3 is billed additionally at 15% of the credit ultimately claimed.
2. Invoices are payable on receipt. Balances outstanding beyond 30 days carry interest at 1% per month.

5. OTHER TERMS

1. Our working papers remain our property. We will retain the engagement file for seven years.
2. Either party may terminate this engagement on written notice. Fees for work performed to the date of termination remain payable.
3. This engagement letter will continue in effect for future years unless it is amended or terminated in writing.

If this letter reflects your understanding, please sign below and return one copy. We are glad to be working with you again.
